Benjamin Hirano

Senior Web & Mobile Developer, Web3 Integration

Timmins

Summary

Hello,

I am a senior full stack developer with more than 8 years of strong experience in website and webapp development using modern JS frameworks and libraries including React, Redux(saga | thunk), React Hooks, Angular, Vue, and Node/Express. I am also pretty much familiar with AWS, GCP, Heroku and AWS Amplify. Recently worked on several Blockchain projects and experienced Web3 integration, RainbowKit, and Ethereum. One of my last project were NFT minting project. I also built out many mobile apps using React Native. I am a creative & detailed person who writes clean and smart code.

Here you can learn more about my experience.
- HTML, CSS, JavaScript, TypeScript, ES6+
- Node/Express, Python/Django, Ruby on Rails
- React, Redux(saga | thunk), React Hooks, Next.js, React Native
- Material UI, Bootstrap, TailwindCSS
- Postrgres, MySQL, NoSQL, MongoDB
- Angular 14, PrimeNG, NgRx, RxJs
- Vue2/3, Vuex, Nuxt.js
- Figma, Sketch, Zeplin
- Heroku, AWS, GCP, Vercel, Netlify
- Git, Gitlab, Bitbucket
- Jira, Trello, Asana

Always open to any challenges and learning new technologies.
Creative & Hard Worker

Best,
Benjamin

Experience

Roboyo
